#### Plan the Budget for your Project

Having a budget in mind is important before you talk to a Home Installs professional about your project. Having your budget ready can help us determine the types of products and materials that we have available for you. We can even help with the financing!

## Print and fill out this package, then bring it into your Home Installs store with you for an easy start to your project!

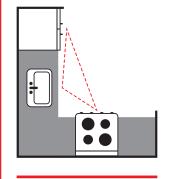

#### Here's How to choose your layout.

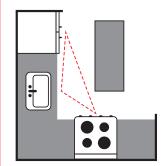

#### Straight Run

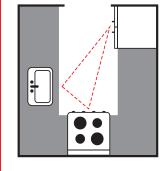

- **1.** All work areas and cabinetry are located along one wall.
- **2**. Less work area and storage space than other layouts.
- **3.** Popular for apartments, small homes, and trailers.

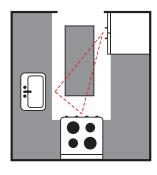

#### L-Shaped

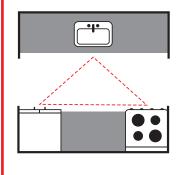

- **1.** Work areas and cabinetry are spread accross 2 walls.
- **2**. This creates an efficient work triangle even with limited space.
- **3.** The most common kitchen layout, and very efficient.

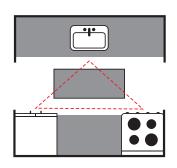

#### U-Shaped-

- 1. Work areas and cabinetry are spread accross 3 walls.
- 2. The work triangle is created with one work centre on each wall.
- **3.** Popular in homes of any size.

#### Galley -

- **1.** Work areas and cabinetry are on two facing walls.
- **2**. This creates an efficient work triangle if the walls are long enough.
- **3.** Popular design in restaurants, appartments, and trailers.

# Need inspiration for your dream kitchen project?

Before moving forward with your project, it's important to have a style in mind. Here are a few Home Installs favourites.

#### Modern & Bright

Strong linear lines with minimalistic hardware and a clean white look. Add wood and natural accents for a strong modern appearance, with additional warmth.

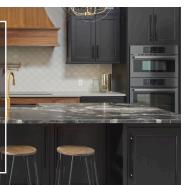

#### **Natural & Inviting**

Light wood with white accents for a bright and natural feel. To add an exciting pop to your natural kitchen try using a dark colour for beautiful contrast in the design.

### Modern & Moody

A dark modern look where your fixtures and accents can really shine. Add wood accents or a stone countertop for a natural aspect that really sets the mood for your kitchen.
